CROOK

silverware

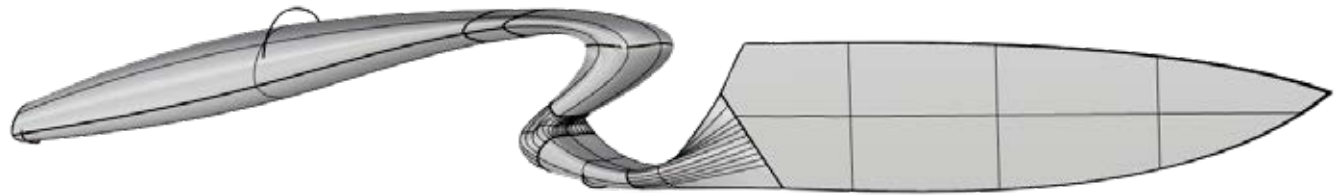

A silverware set that eliminates food contact between the utensils and table, allowing them to remain in use throughout the duration of multiple courses in fine-dining settings and first-class flights.

Cast from metal and polished, with the potential for custom textures and finishes.

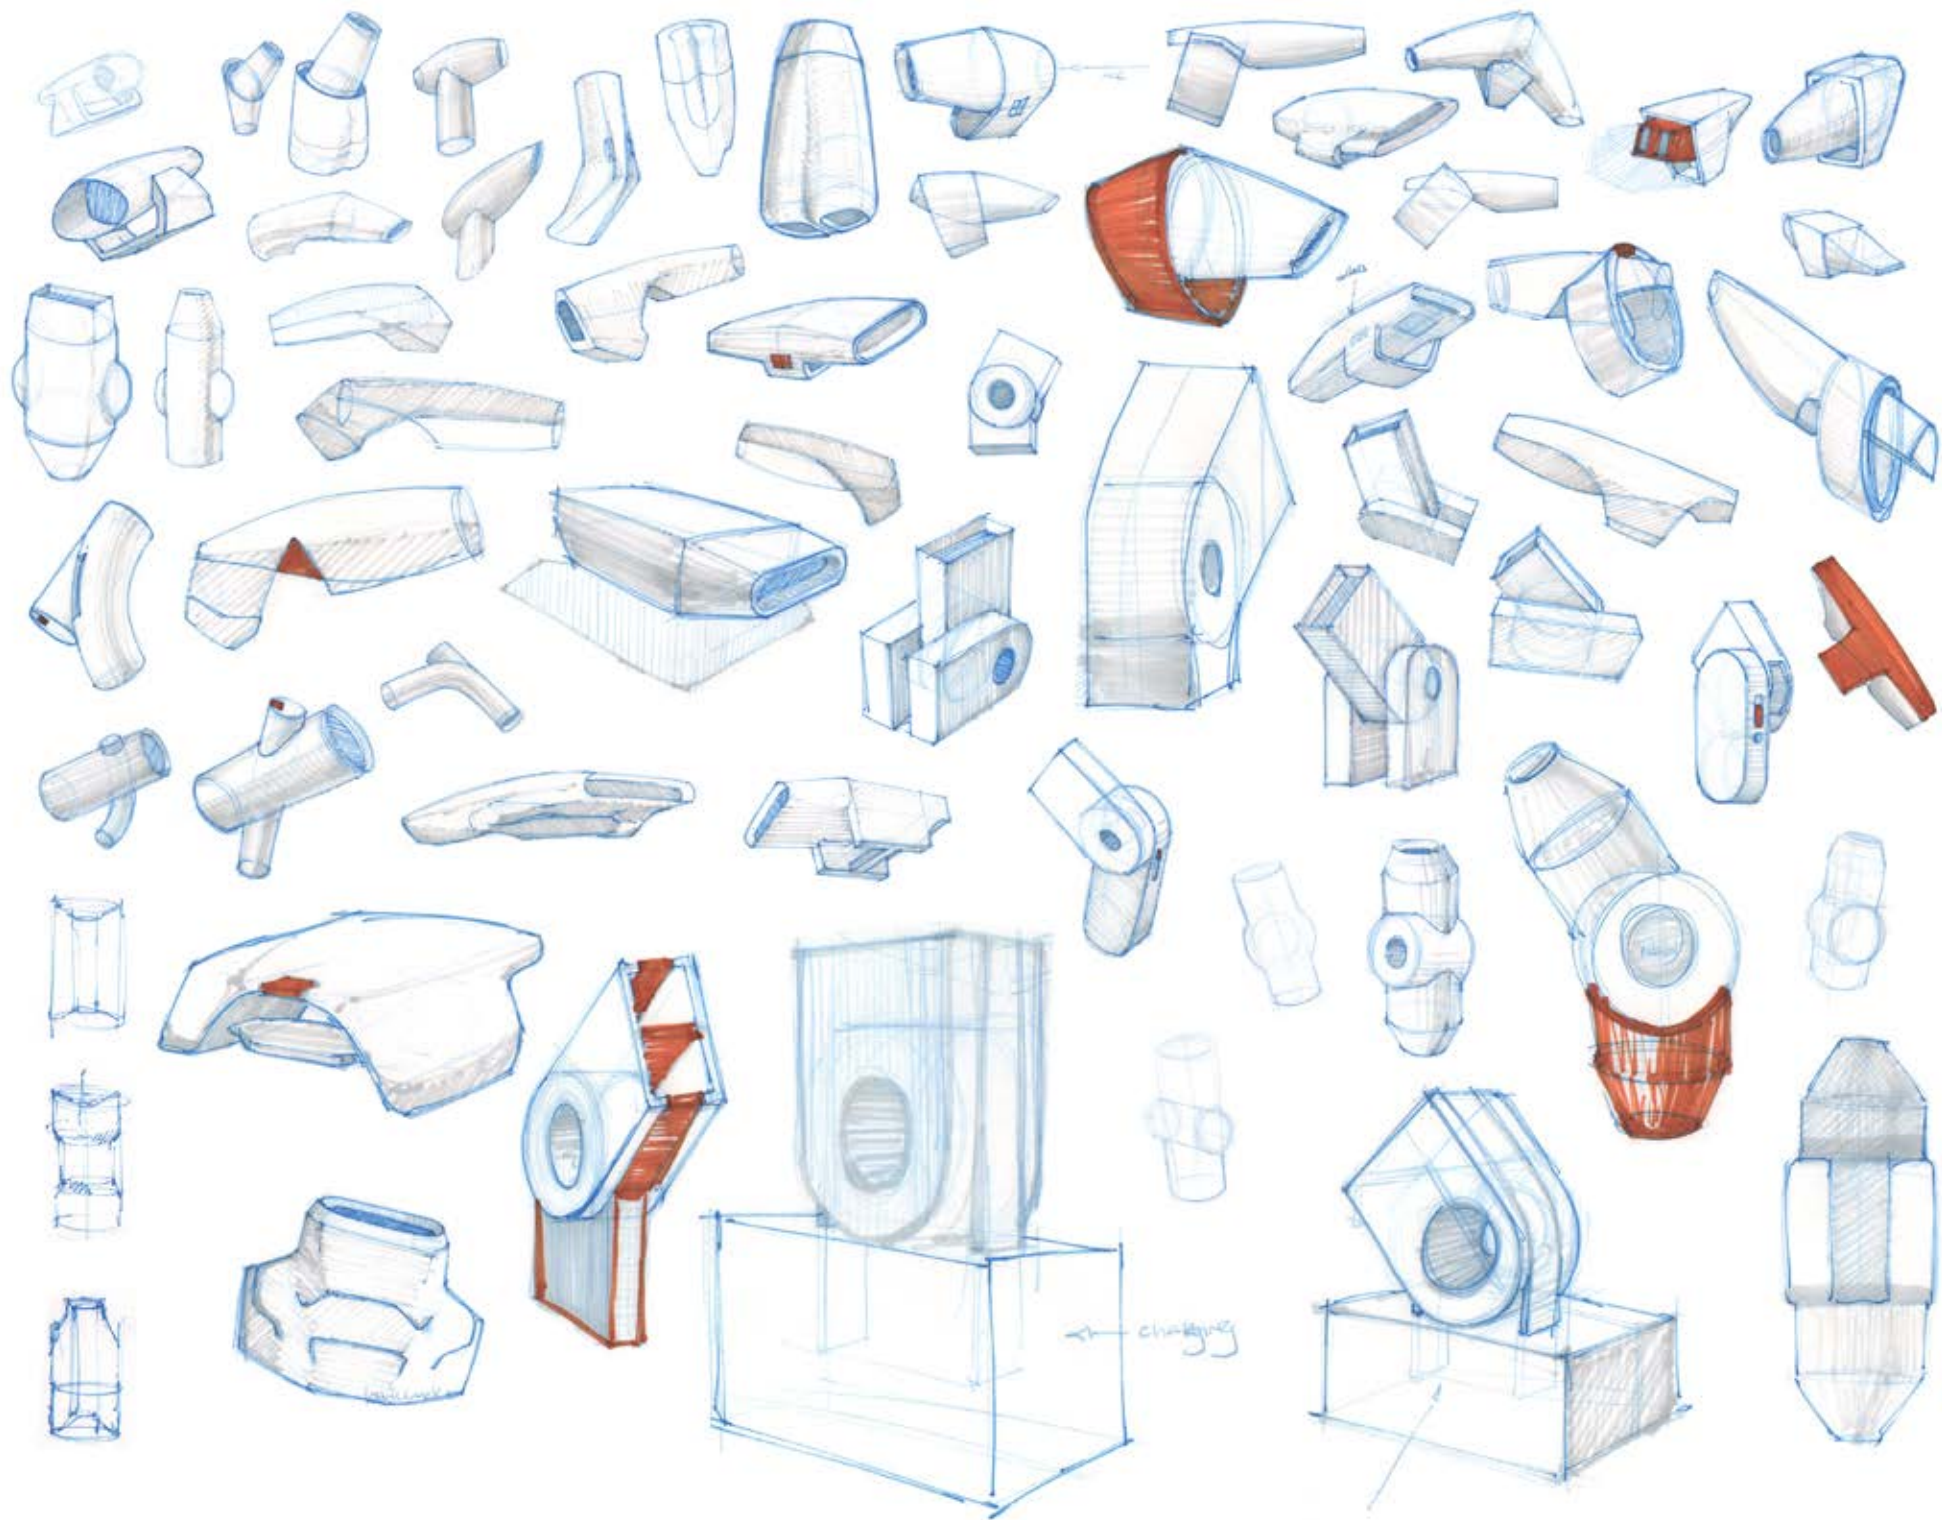

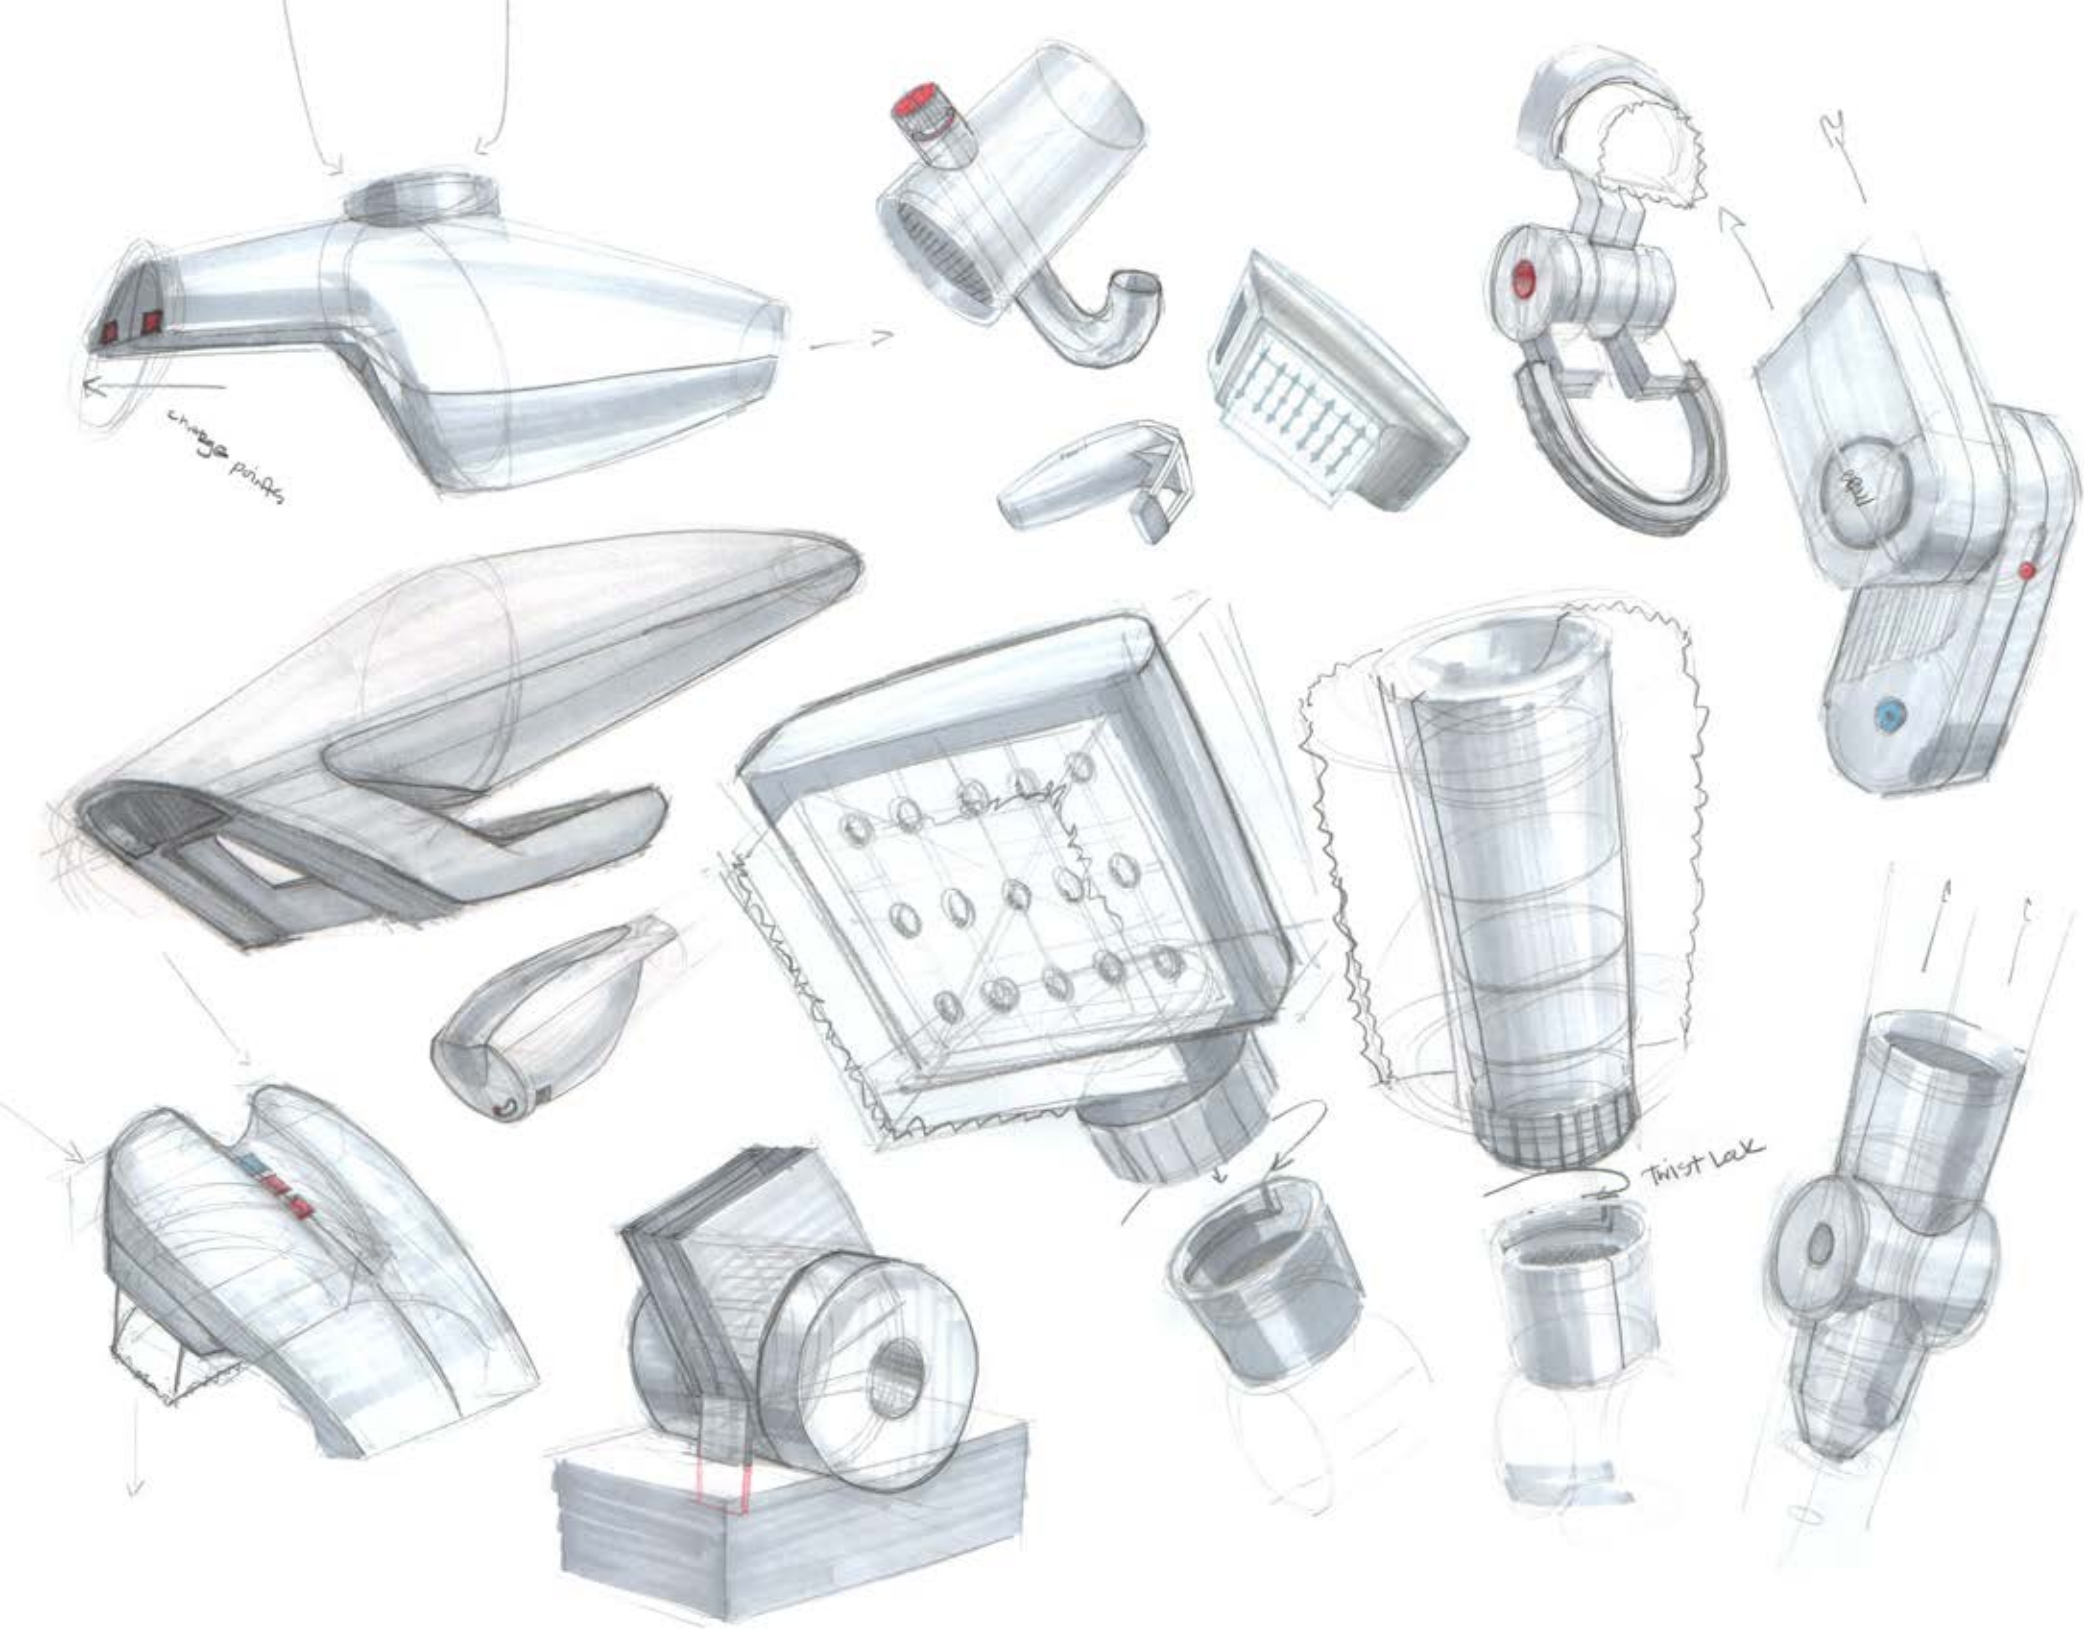

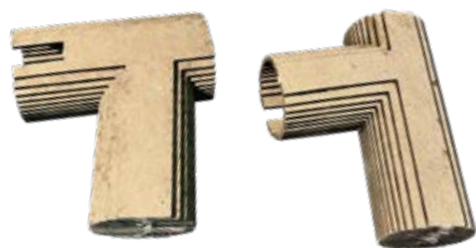

BRAUN
portable hairdryer concept

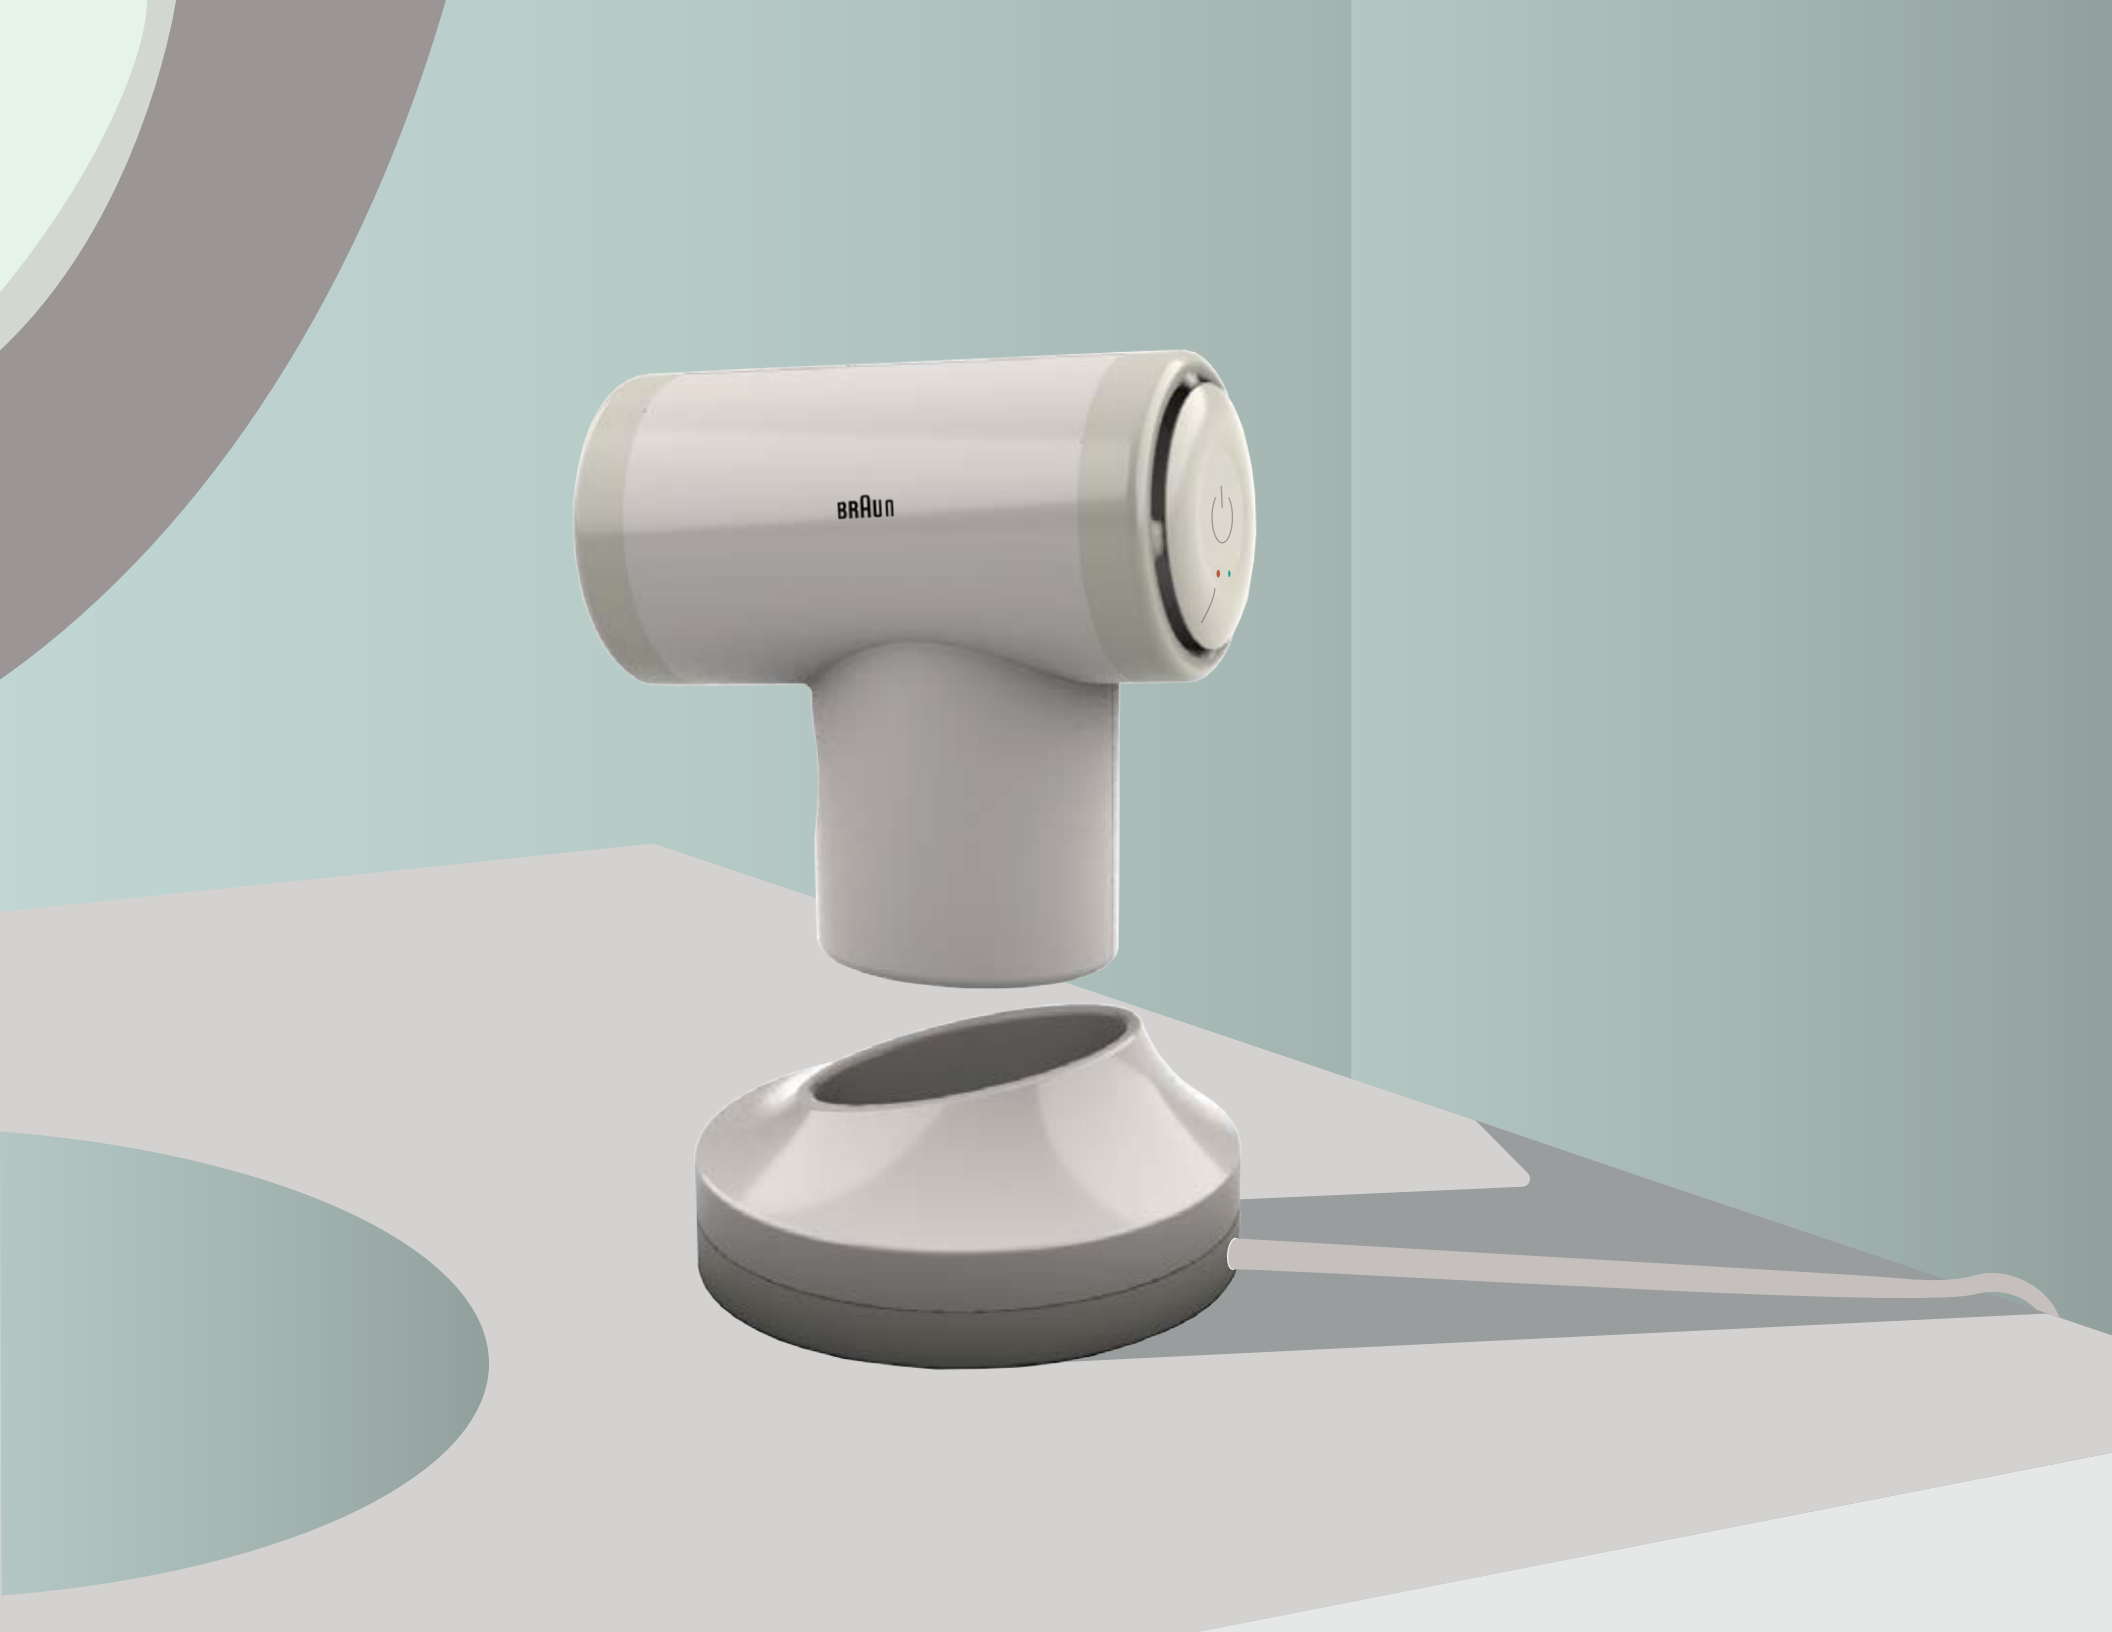

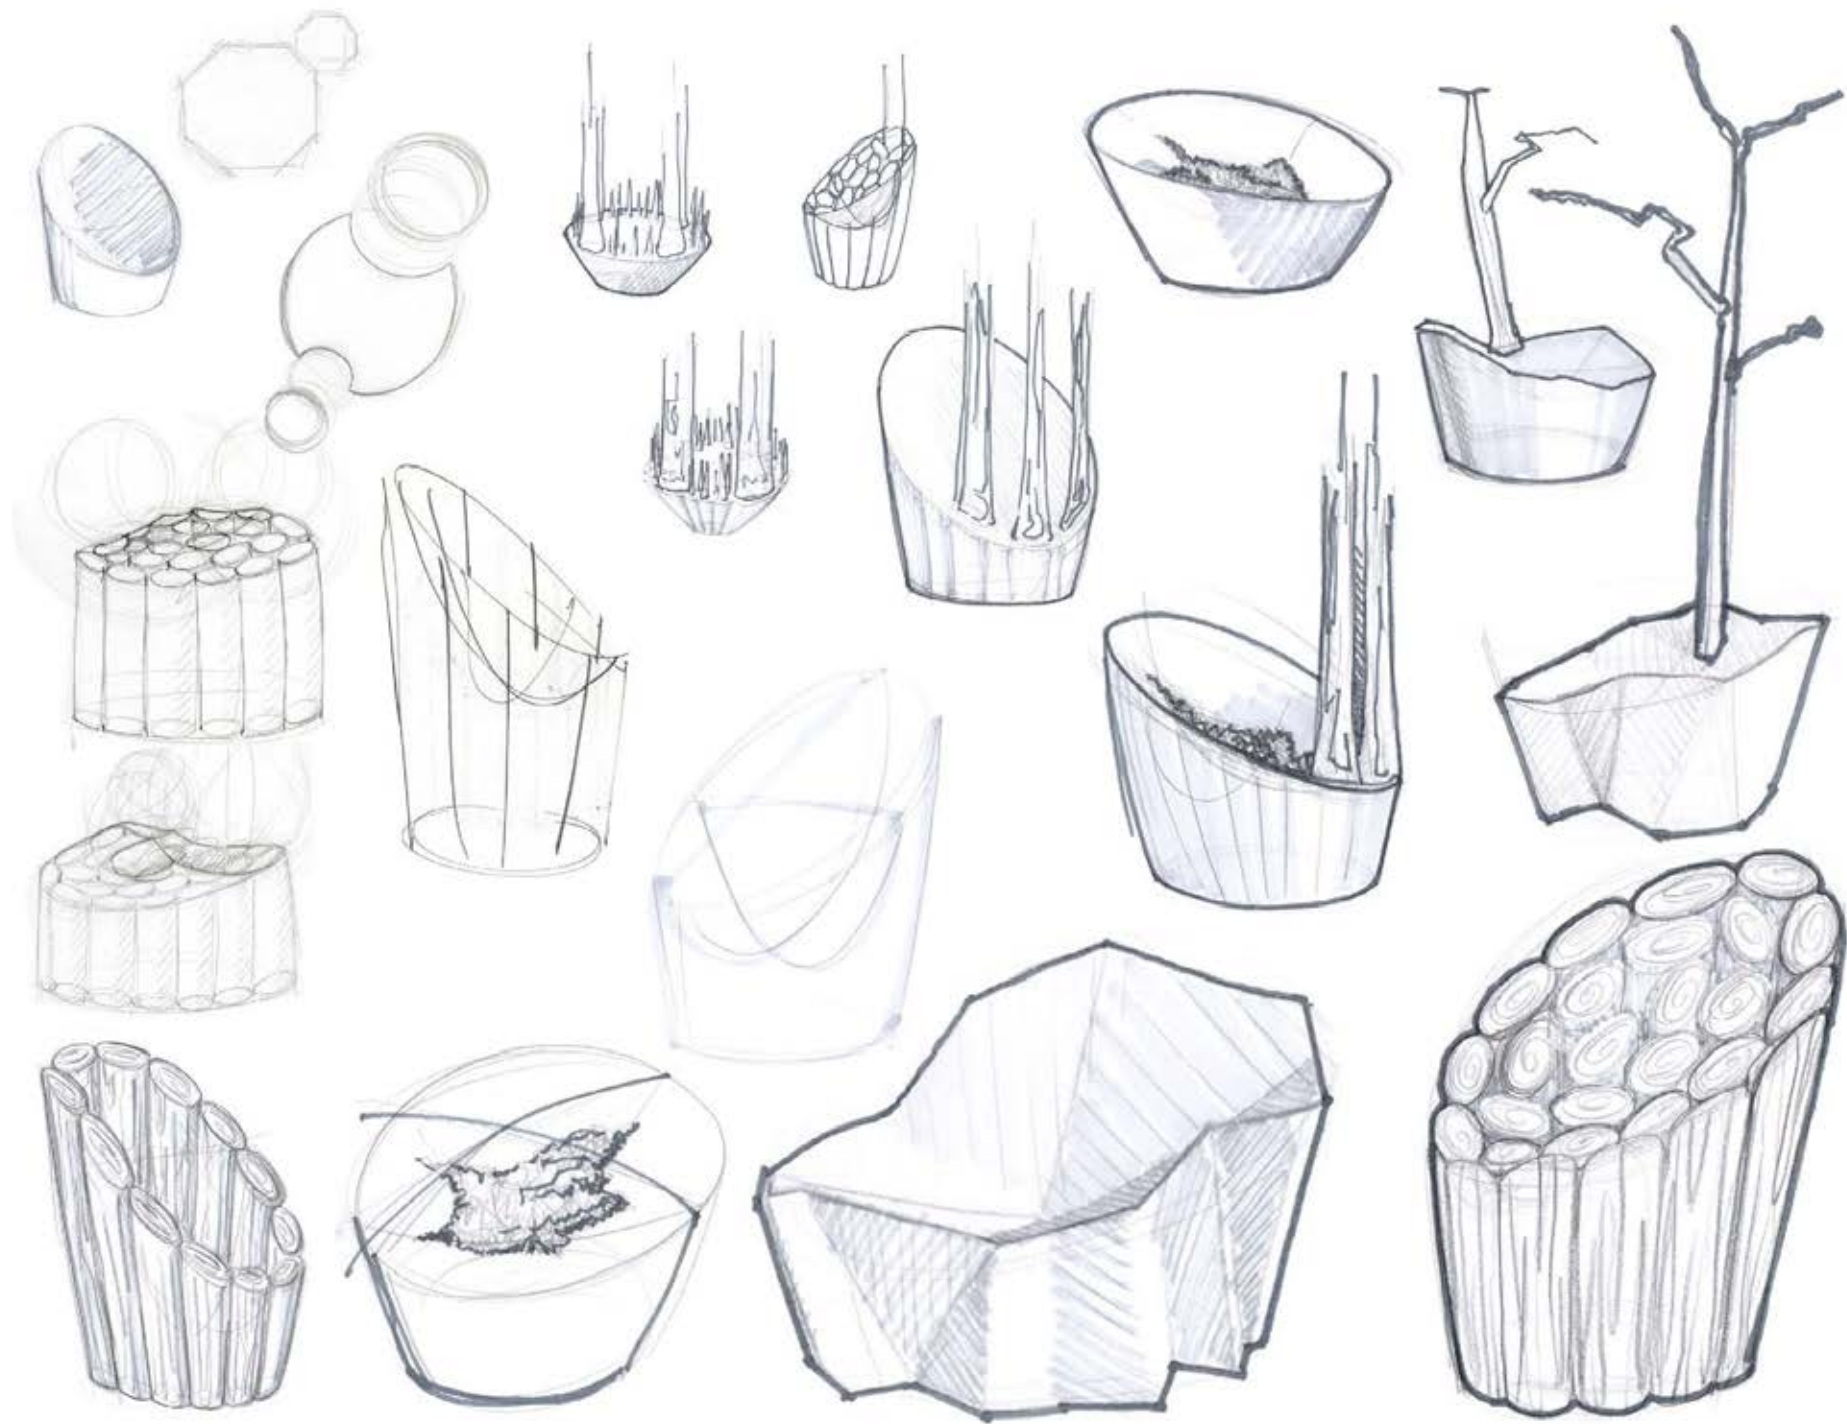

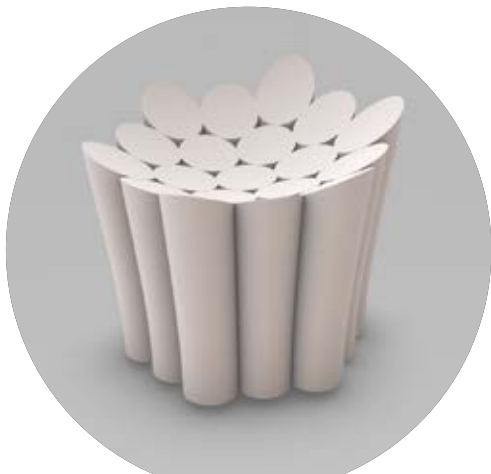

TRUNK

countertop vessel

A kitchen countertop vessel for production through printed clay with a variety of presentation methods useful for herbs, vegetables, fruits, flowers, and utensils.

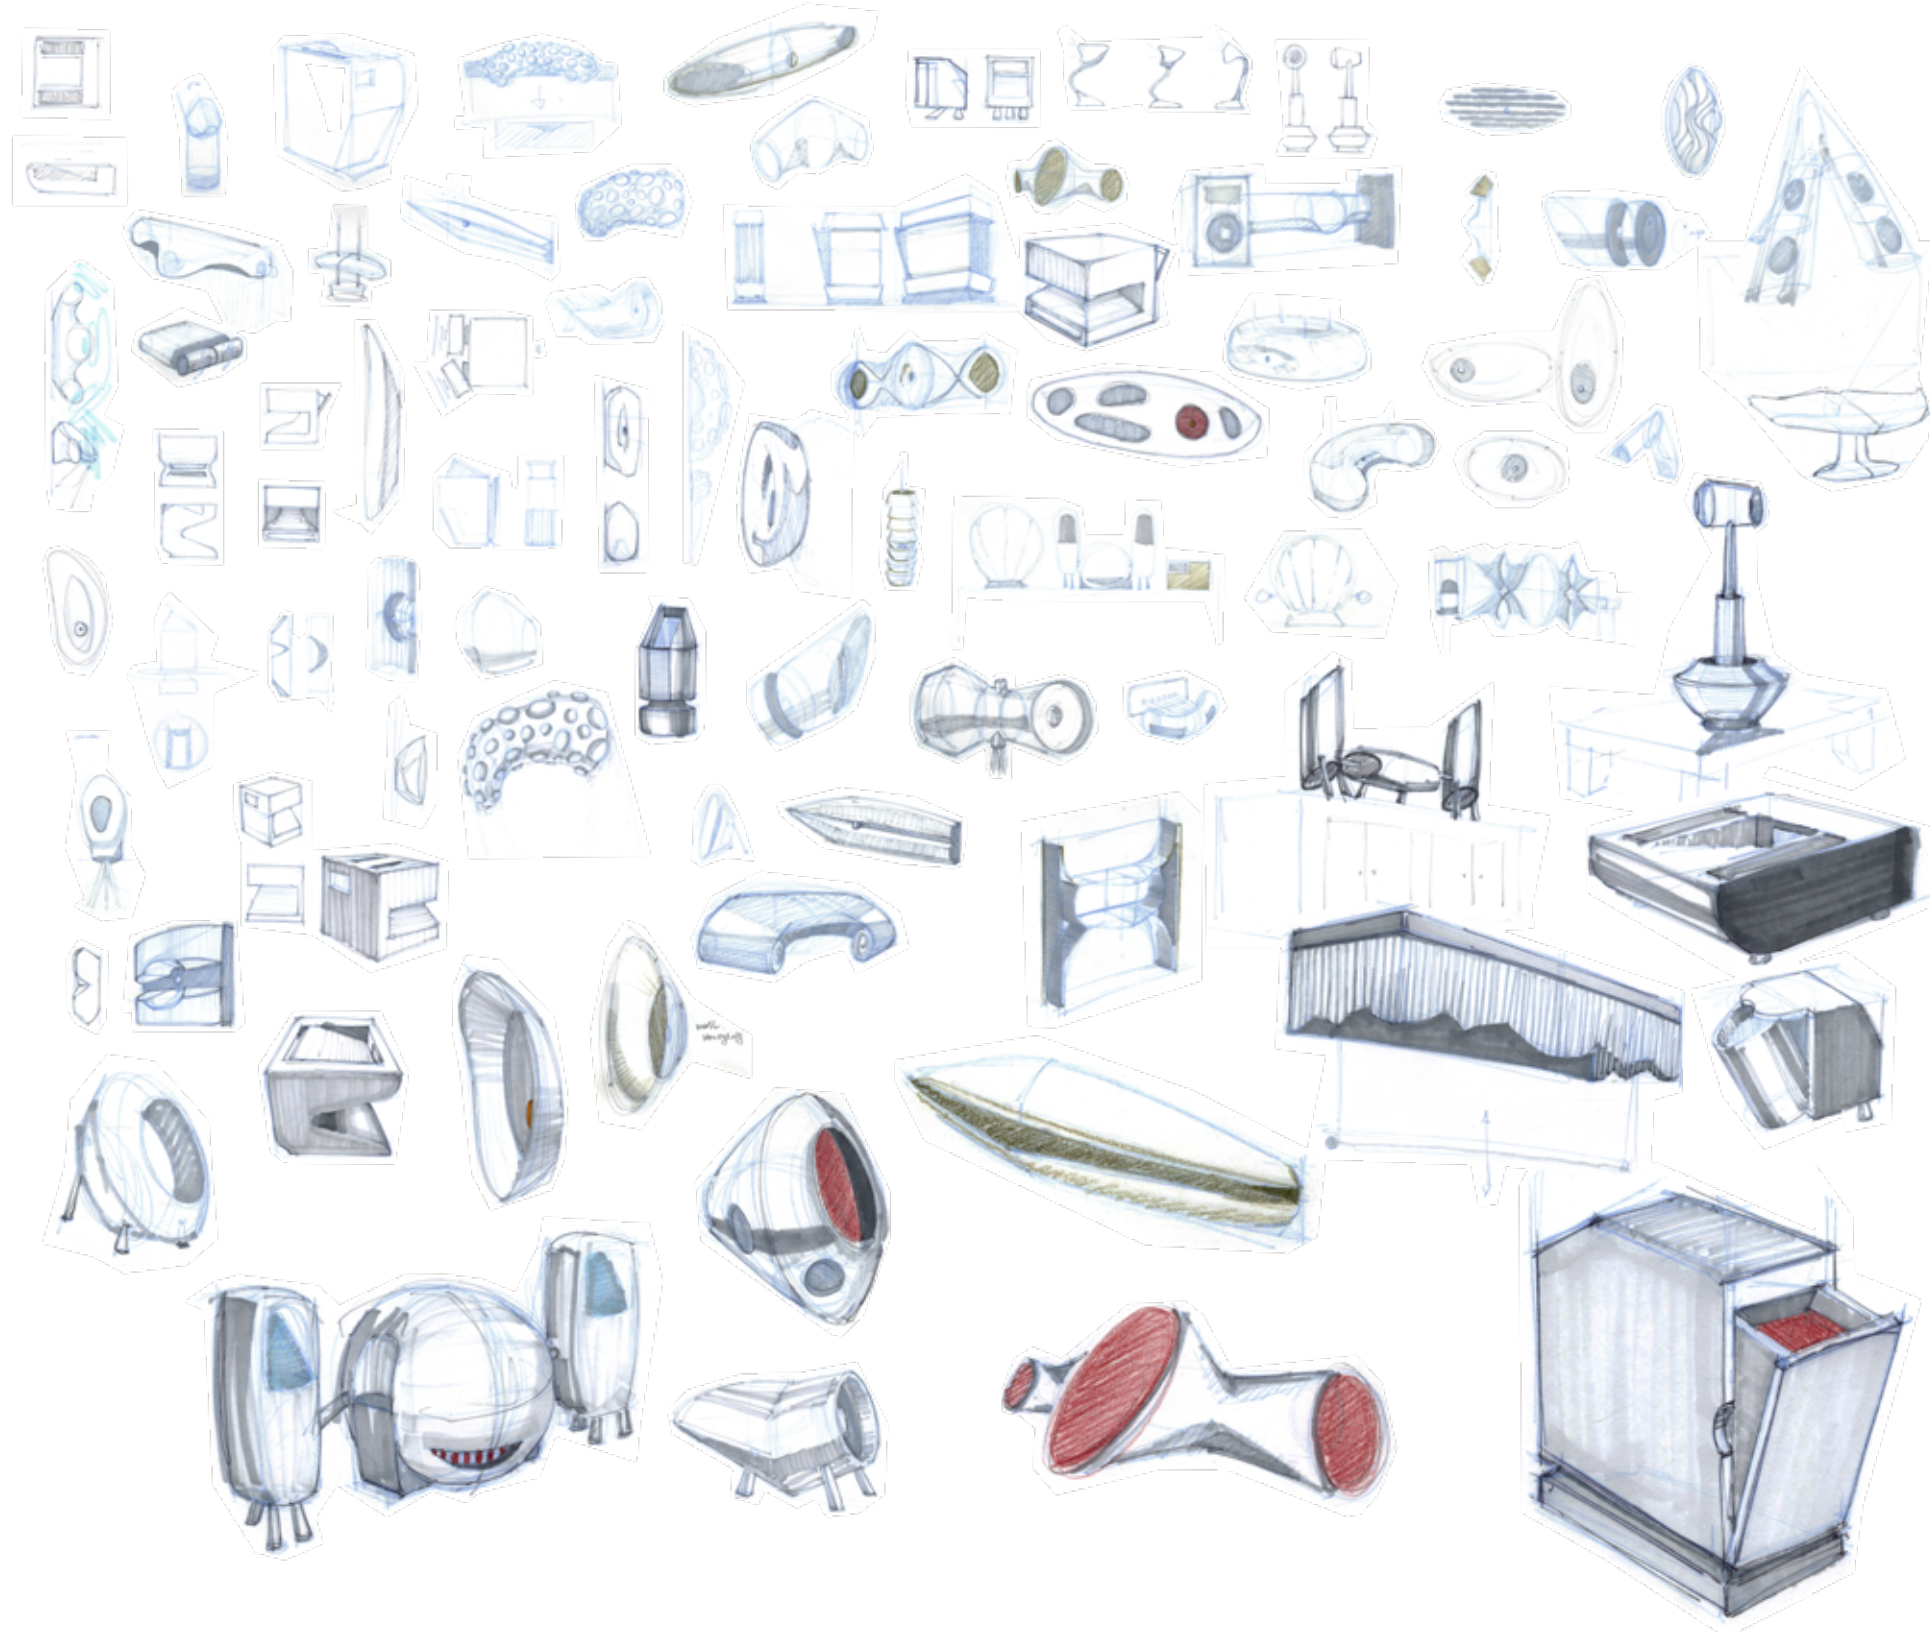

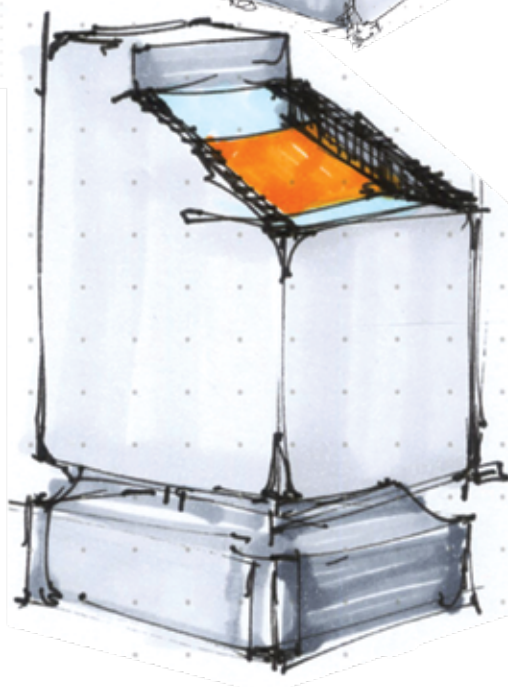

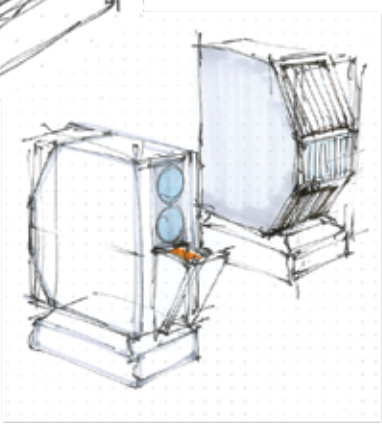

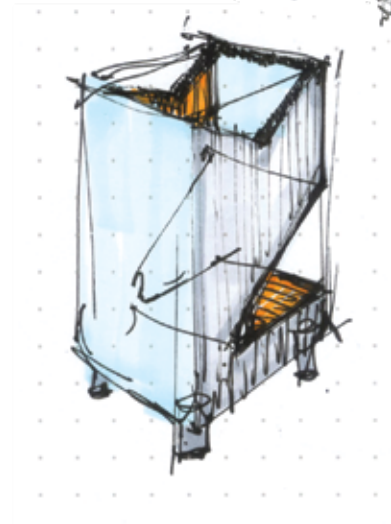

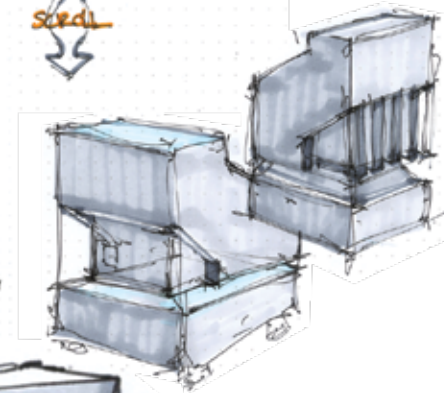

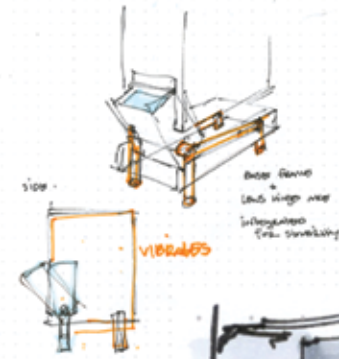

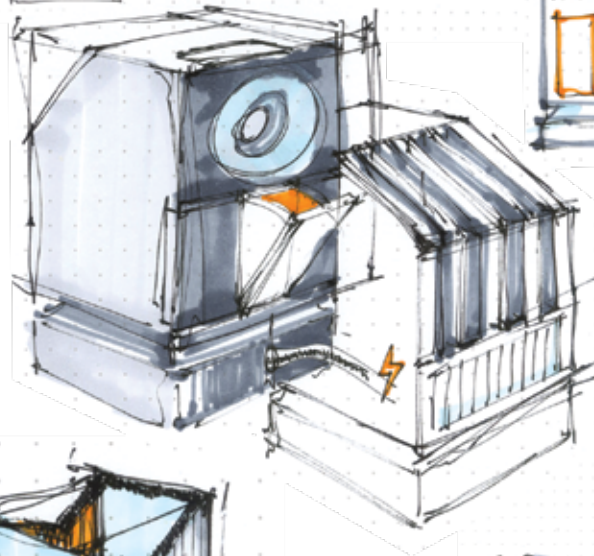

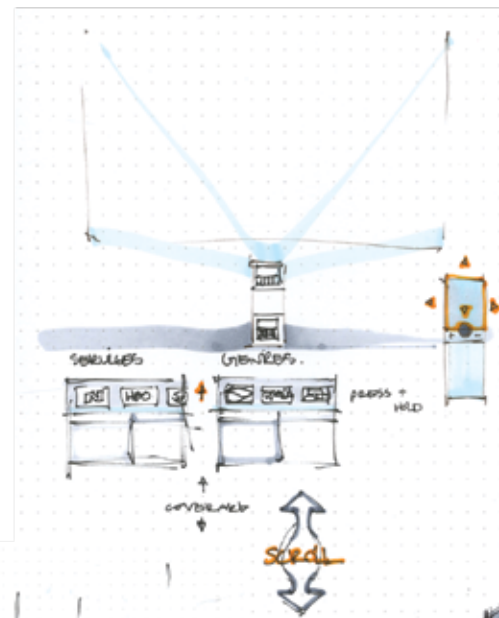

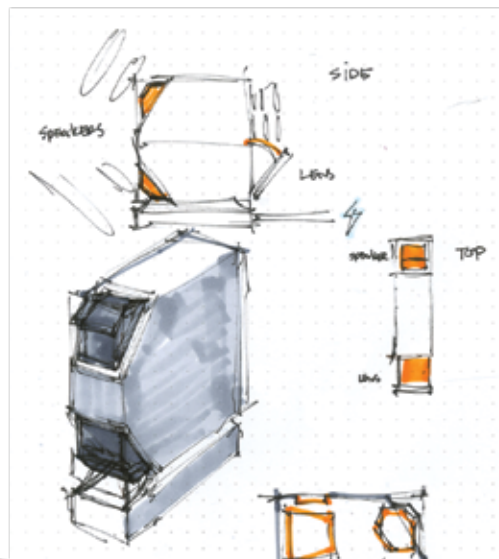

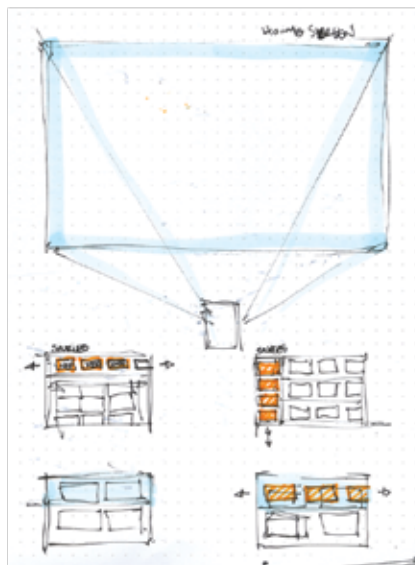

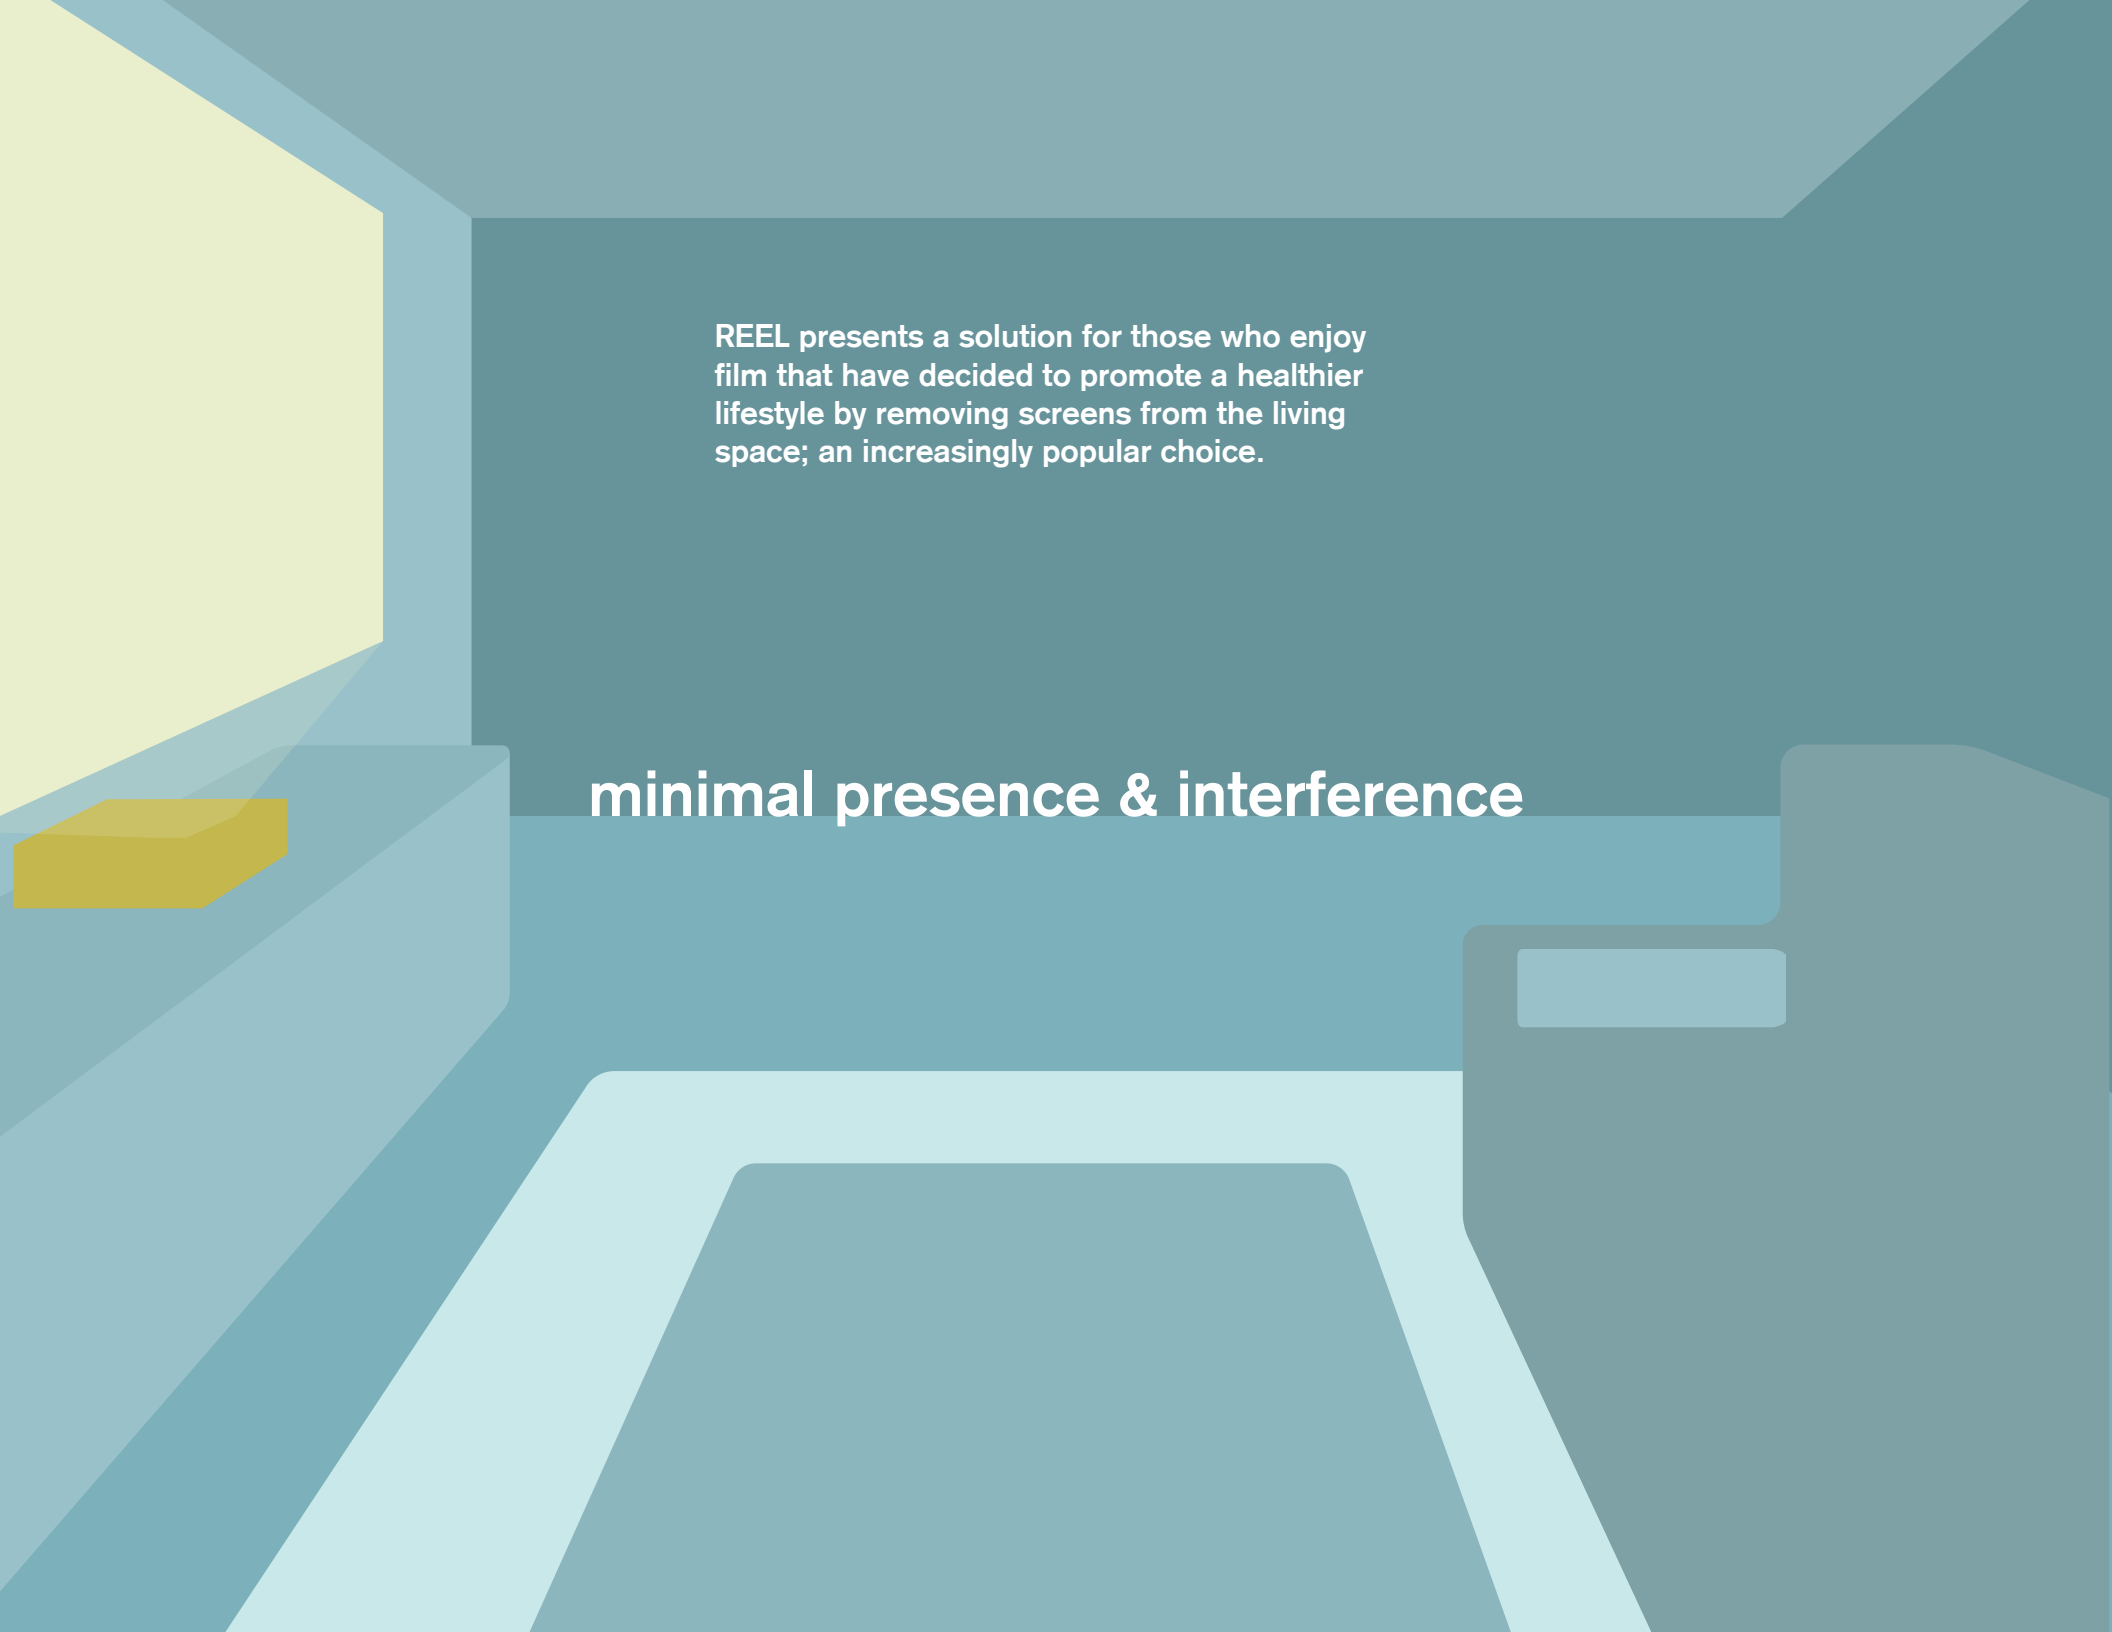

REEL

entertainment console

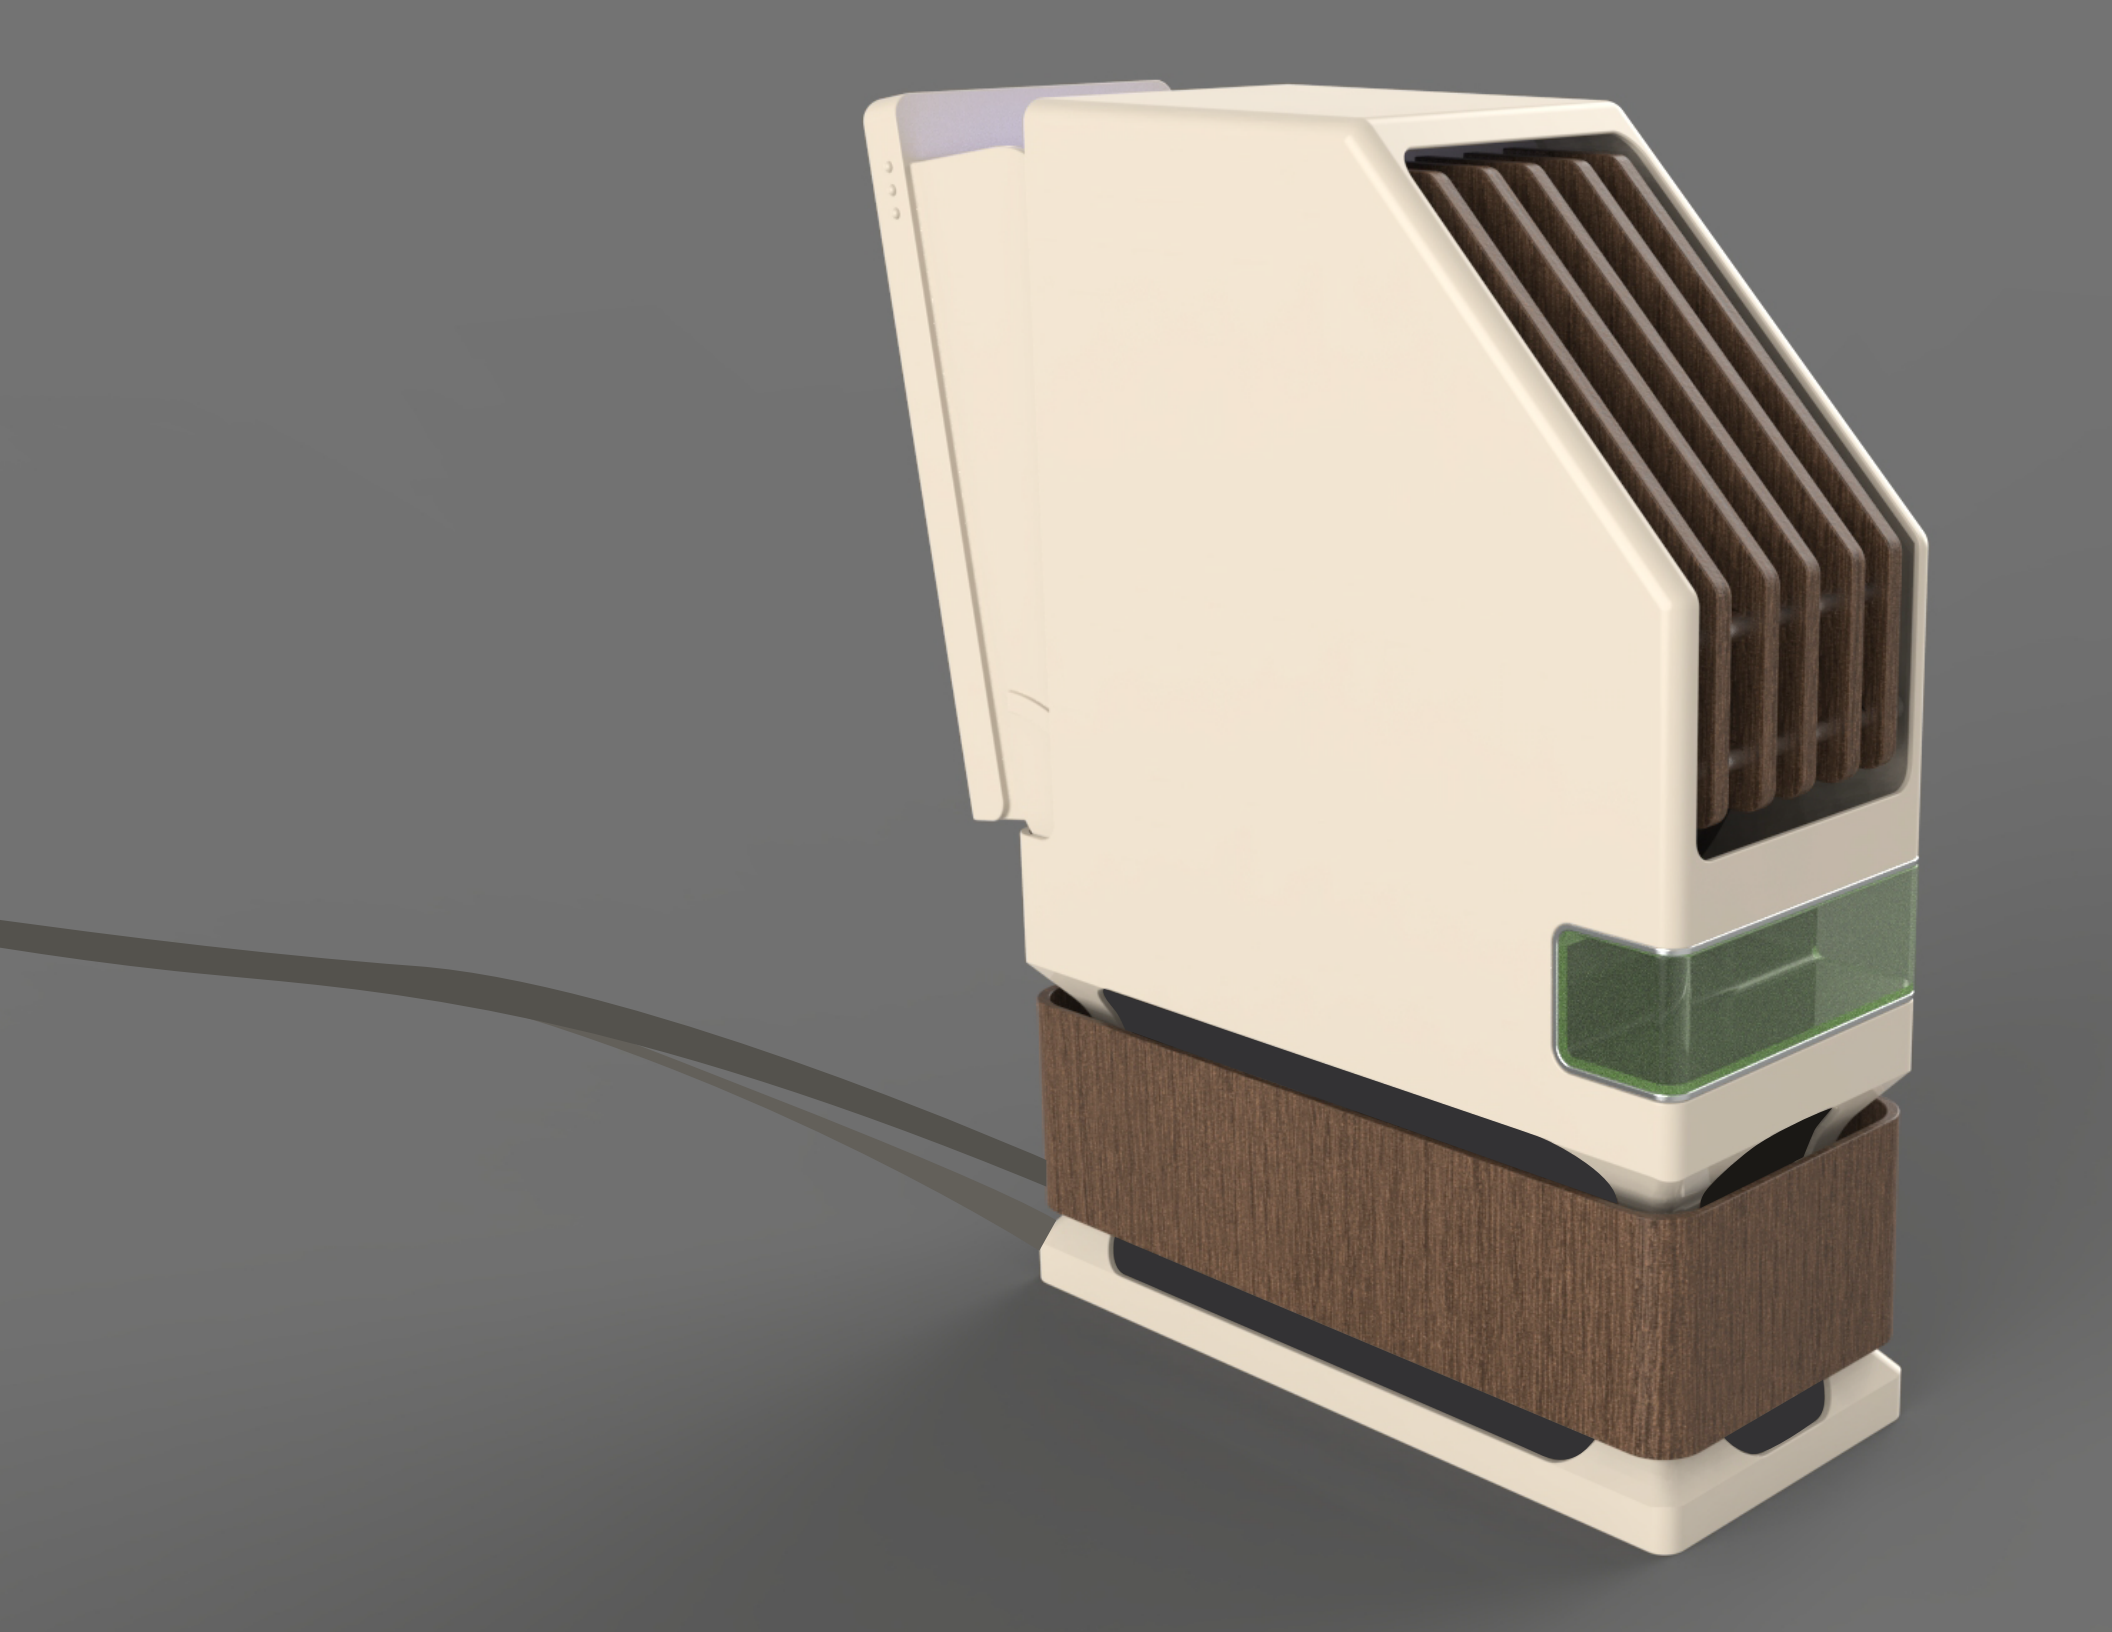

REEL presents a solution for those who enjoy film that have decided to promote a healthier lifestyle by removing screens from the living space; an increasingly popular choice.

minimal presence & interference

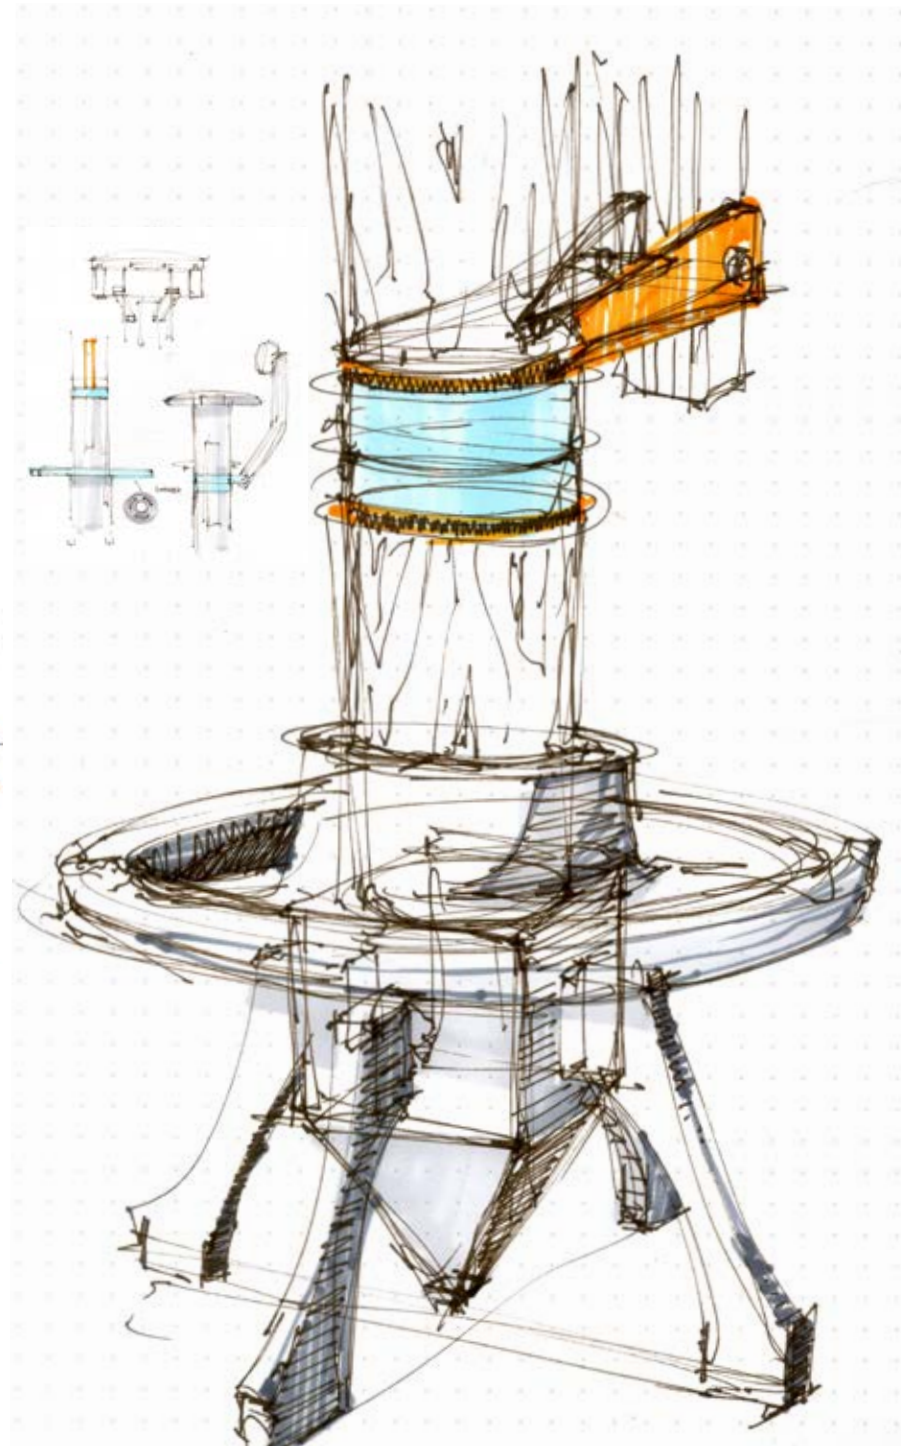

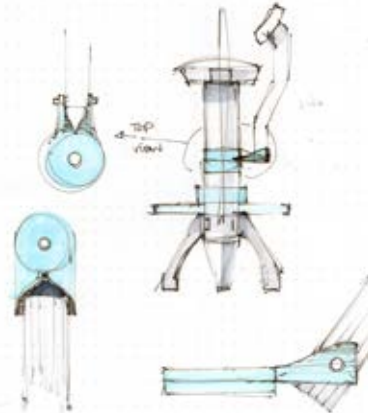

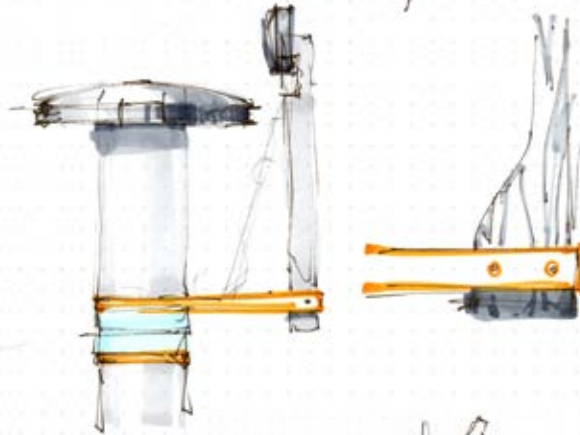

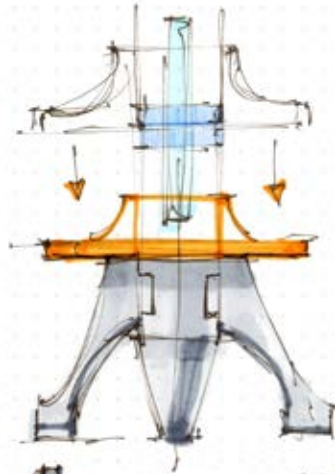

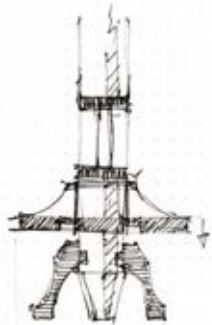

The University of Louisiana at Lafayette				
Exploded View and M&P			Drawn By: John Clark	
No.	Part Name	Req	Material	Process
01	Fan	1	ABS	Injection Mold
02	Circuit Board	1	Multiple	Soldered
03	Sub Woofer	1	Polypropylene	Injection Mold
04	Passive Resonator	1	Polypropylene	Injection Mold
05	Mid Woofer	1	Polypropylene	Inejction Mold
